

SONAR HOME STUDIO

Retail Price: \$99

Key Features

Create & Record

- Get creative with 64 audio tracks and unlimited MIDI tracks
- Track and project templates do the set-up for you so you're making music fast
- Play and record MIDI parts in perfect time using Input Quantize
- Record your whole band at once using multi-input audio interfaces at up to 24-bit/192 kHz quality
- Browse over 1 GB of loop and instrument content and preview audio and MIDI loops in time and key with your song to create backing tracks
- Create instrument parts using the DropZone™ sampler and genuine Roland® sounds: drums, bass, guitar, keys, orchestral, & more

Arrange & Edit

- Arrange and edit your project with an easy to understand user interface
- Recording, editing, and mixing tools are just a click away
- Print music notation, lyrics, and lead sheets
- Keep projects organized with Track Folders and Track Icons
- Assemble the perfect take with non-destructive crossfades and other editing tools
- Zero in on edits and navigate quickly with Fast Zoom
- Score soundtracks to video in time with the action using the Video Track

Mix & Share

- Mix like a pro using the new Console view with built-in Sonitus:fx EQ on every channel
- New Send Assistant simplifies audio routing and effects busses
- Effortless mixing with powerful automation tools
- Sweeten your tracks with reverb, delay, dynamics, modulation, tape and amp simulation, and more
- Control mix, effects, and instruments from external MIDI devices using Active Controller Technology (ACT)
- Burn mixes directly to CD
- Upload songs and create custom streaming music players for your website with Cakewalk Publisher

SONAR Home Studio 7

SONAR Home Studio 7 is the easiest way to turn your PC into a full-fledged music production studio. From start to finish, SONAR Home Studio will help you capture your creativity and share it with the world. With SONAR Home Studio you can record live instruments, vocals, or any audio source. You can easily edit audio, MIDI, and music notation. The updated Loop Explorer gives you the tools to build backing tracks faster than ever. Add real instrument sounds using the included virtual instruments suite. Bring your mix together with studio-quality audio effects and professional mixing tools. When you are finished, share your music on the web or burn it to CD for fans, friends, and family. SONAR Home Studio is the complete solution for creating and sharing professional quality music--now easier than ever.

SONAR Home Studio 7 is perfect for:

- Bands who want to produce their own album
- Singer-songwriters who want high-quality versions of their songs
- MCs who need beats and an easy tool for recording
- Aspiring producers and engineers getting started with recording
- Educators who need to create accompaniment and lead sheets
- Video editors and podcasters who are looking to create their own soundtracks
- Anyone who dreams of having their own multitrack recording studio
